DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's previous submission filed on February 1, 2006 was entered into the file. Applicant's most recent submission filed February 27, 2006 is a duplicate of that one.

Election/Restrictions

2. Claims 1,3-20 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9/15/05.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 2 rejected under 35 U.S.C. 102(b) as being anticipated by Yoshida '340.

Regarding claim 2, as broadly claimed, Yoshida '340 discloses a handlebar 26, a lug 3 connecting the handlebar 26 to a steering stem 2 of a bicycle. Note the pump 9,18 is held within the lug 3.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 2 rejected under 35 U.S.C. 103(a) as being unpatentable over Andrus in view of Yoshida.

Regarding claim 2 Andrus discloses as best seen in figure 6 an apparatus for the control of brakes in bicycles comprising a pump 60,64,108,90,94, as broadly claimed, capable of pushing fluid into a hydraulic circuit 62 wherein the pump is held inside the handlebar or a part associated therewith. Note also that Andrus discloses a sleeve at 54 and a lug, as broadly claimed, at 126 or 128.

Lacking in Andrus is a specific showing of the pump assembly being held inside the lug connecting the handlebar to the steering stem of the bicycle.

However given the breadth of applicant's claim and the strong similarity in designs of Yoshida and Andrus, such a modification to Andrus in view of the teachings of Yoshida, would have been obvious to the ordinary skilled worker in the art at the time of the invention.

Response to Arguments

7. Applicant's arguments filed February 21, 2006 have been fully considered but they are not persuasive. With respect to the patent to Yoshida at the top of column 1 it is stated "This invention relates to a motorcycle or other vehicles having a handlebar..."

Therefore, the device is capable of use with bicycles, as clearly demonstrated in some of the other references of the prior art of record. Also see lines 18-21 of column 1 in the device to Andrus.

Conclusion

8. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
